

FAB FOILS COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Fab Foils Cowhide are made with a foil transfer to create the high sheen, reflective surface of this leather.

CHARACTERISTICS:

Fab Foils Cowhide will scratch and mark and should be used for less-demanding applications.

These leathers are not recommended for seating.

This leather is most appropriate for decorative areas, trim applications, and vertical surface areas not prone to high wear patterns.

Fab Foils are available only as half hides (sides) of 25 - 30 SF each.

FAT WRINKLES

A: Permanent natural creases on the hide caused by fat deposits in the live animal usually found in the neck, shoulder, and belly area.

SCARS

B: Healed wound during life of animal which is characterized by raised surface and inconsistent grain. Scars are more apparent in the Aniline leathers than in Finished leathers.

VEINS

C: Characterized by many clearly visible blood vessels, either closed or cut open by splitting or shaving operations.
