IMPRESSIONS II COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Impressions II Cowhides are appealing full hide embossings that showcase the velvet-like suede nap of this Nubuck cowhide. Hand-tipped in tonal or metallic pigments that dazzle each refined color.

CHARACTERISTICS:

The characteristic finish effect of this leather artwork is applied by hand; the resulting variance in design and color are part of its natural beauty. With the hand-crafted nature of this product, variation in color and texture should be expected as part of the natural beauty of this leather.

As an Embossed leather, there will be less natural characteristics shown on a hide due to the embossed pattern disguising many of these, but because this is a natural product, neck wrinkles, scars, and other characteristics should be expected and will vary within a hide and from hide to hide.

As a Semi-Aniline leather, Impressions II Cowhide only receives a light tipping pigment layer added to the aniline crust which provides a slightly more consistent and durable leather than a full Aniline leather, however, will still exhibit natural variations in color, tone, and texture and does not have the full coverage that Finished leather does.

Due to lack of any pigment finish coverage, Impressions II Cowhide is subject to soiling, fading, and wear. 3M Scotchgard is recommended to keep the leather looking beautiful longer, but will not fully protect against wear and tear over time.

As a Hand-Tipped leather, there will be some variation in shading, heaviness, and coloration with a hide and from hide to hide.

A sample of Impressions II Cowhide is not necessarily representative of the overall coloration, effect and characteristic of an entire hide.

A: Impressions II Cowhide is a Semi-Aniline leather, with no consistent surface pigments; there will be natural color shading within a hide and from hide to hide.

B: Leather is a natural product, therefore it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.

C: Impressions II Cowhide is a Hand-Tipped leather, therefore there will be some variation in coloration and boldness of the tipping effect within a hide and from hide to hide, due to its hand-crafted nature.

D: Impressions II Cowhide patterns are embossed with an embossing plate. There will be noticeable matchlines at each point the pattern repeats. This is controlled as much as possible. Alternatively, this leather can be produced and sold as pre-cut panels and with panels, there is no matchline
