

METALLIC LUNA SUEDE COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Metallic Luna Suede is a beautiful, genuine split suede that has been aniline-dyed and then hand-rubbed with metallic pigments to create a unique and glistening surface.

As a Hand-Rubbed leather there will be some variation in coloration and boldness of the rubbing effect within a skin and from skin to skin.

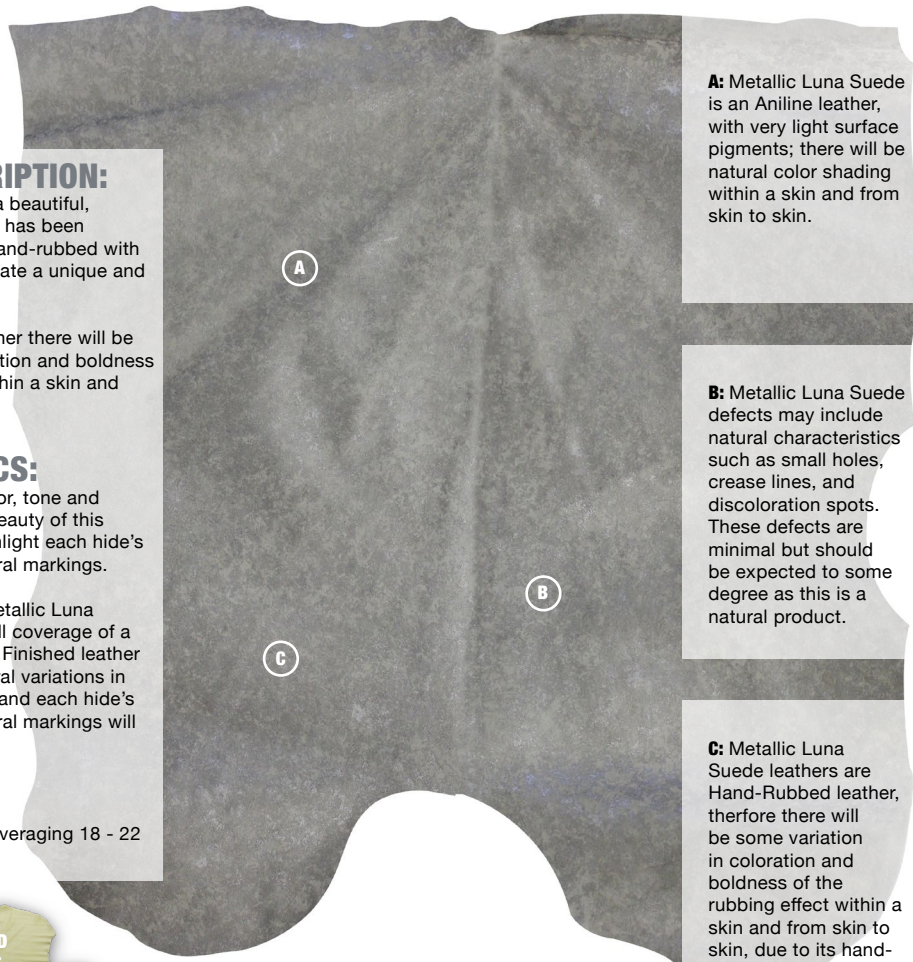

CHARACTERISTICS:

Natural variations in color, tone and texture are part of the beauty of this leather artwork and highlight each hide's unique history and natural markings.

As an Aniline leather, Metallic Luna Suede does not have full coverage of a pigmented formula as a Finished leather does; there will be natural variations in color, tone, and texture and each hide's unique history and natural markings will be highlighted.

Super softness.

These are small skins, averaging 18 - 22 SF in size.

A: Metallic Luna Suede is an Aniline leather, with very light surface pigments; there will be natural color shading within a skin and from skin to skin.

B: Metallic Luna Suede defects may include natural characteristics such as small holes, crease lines, and discoloration spots. These defects are minimal but should be expected to some degree as this is a natural product.

C: Metallic Luna Suede leathers are Hand-Rubbed leather, therefore there will be some variation in coloration and boldness of the rubbing effect within a skin and from skin to skin, due to its hand-crafted nature.
