

STARGAZER COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Stargazer Cowhide is an aniline-dyed, finished cowhide that has been Hand-Rubbed with beautiful metallic pigments that accentuate the natural beauty and unique texture of each individual hide.

CHARACTERISTICS:

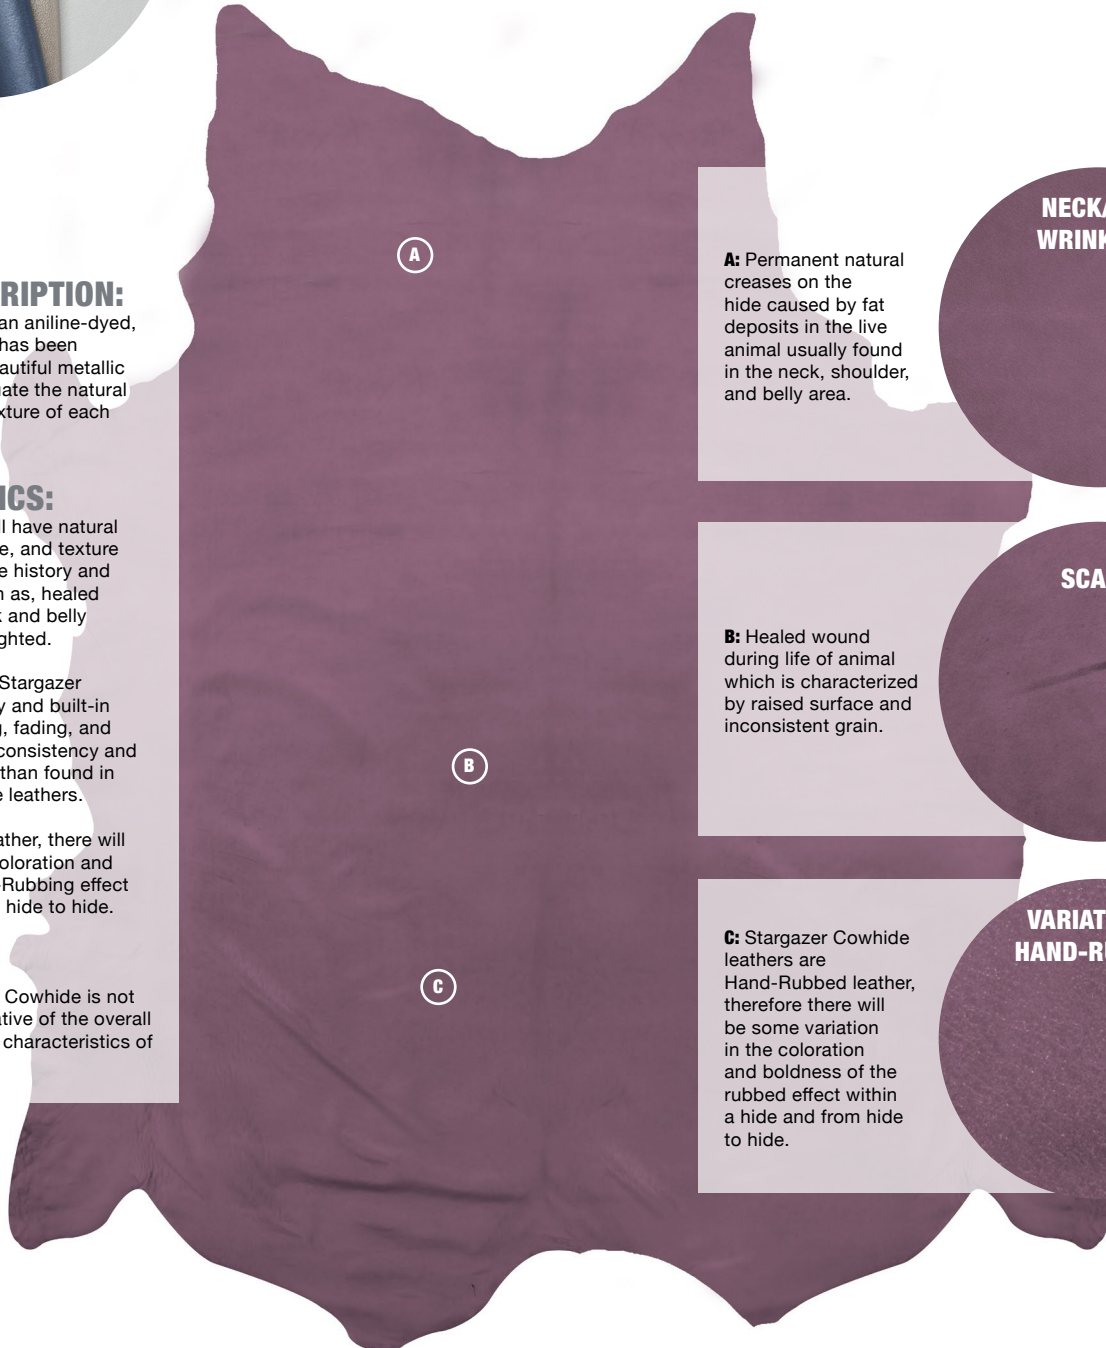

Stargazer Cowhide will have natural variations in color, tone, and texture and each hide's unique history and natural markings, such as, healed scars, scratches, neck and belly wrinkles, will be highlighted.

As a Finished leather, Stargazer Cowhide has durability and built-in protection from soiling, fading, and wear as well as more consistency and less apparent defects than found in Aniline or Semi-Aniline leathers.

As a Hand-Rubbed leather, there will be some variation in coloration and boldness of the Hand-Rubbing effect within a hide and from hide to hide.

Super softness.

A sample of Stargazer Cowhide is not necessarily representative of the overall coloration, effect, and characteristics of an entire hide.

NECK/FAT WRINKLES

A: Permanent natural creases on the hide caused by fat deposits in the live animal usually found in the neck, shoulder, and belly area.

SCARS

B: Healed wound during life of animal which is characterized by raised surface and inconsistent grain.

VARIATION IN HAND-RUBBING

C: Stargazer Cowhide leathers are Hand-Rubbed leather, therefore there will be some variation in the coloration and boldness of the rubbed effect within a hide and from hide to hide.
