

TIMEPIECE COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Timepiece Cowhide is an aniline-dyed cowhide noted for its subtle tone-on-tone antiquing that gives this leather a traditional style that exudes elegance

CHARACTERISTICS:

The leather receives both a machine antique effect and a skillful hand-rubbing that creates the slightly distressed look and multiple color tones.

The hand-rubbing accentuates the natural beauty and unique characteristics of each hide.

Because of the nature of this leather, there will be variations in color, tone, and texture; expect some variation in coloration and heaviness of the antique effect within a hide and from hide to hide. This is part of the inherent beauty of this hand-crafted and natural product.

A sample of Timepiece Cowhide is not necessarily representative of the overall coloration, effect, and characteristics of an entire hide.

A

A: Permanent natural creases on the hide caused by fat deposits in the live animal usually found in the neck, shoulder, and belly area.

FAT WRINKLES

B

B: Timepiece Cowhide is a spray-antiqued and Hand-Rubbed off leather, therefore there will be some variation in the coloration and boldness of the rubbed effect within a hide and from hide to hide.

VARIATION IN HAND-RUBBING

C

C: Healed wound during life of animal which is characterized by raised surface and inconsistent grain.
